Summary

Experienced iOS Engineer with 10+ years in building high-performance apps for large-scale users, specializing in Swift, Objective-C, SwiftUI, and clean architecture practices including modularization.

Work Experience

iOS Engineer @ HelloFresh

📅 Jan 2022 – Present   🗺 Berlin, Germany

I have been working on HelloFresh main iOS application since I started working for HelloFresh.

- Developed new features (i.e. customer discount wallet) and reduced the cancellation rate by more than 2%.
- Improved the accessibility of the app
- Migrated some of the old code base to use the up to date technologies
- Continuously improved the testability and test coverage of the application through UI Tests and unit tests.

Technologies: iOS, Swift, UIKit, SwiftUI, Combine, Concurrency, Modularisation

Mobile Apps Team Lead @ Kobil

📅 Sep 2018 – Dec 2021   🗺 İstanbul Technopark

- Developed iOS applications and reusable modules.
- Developed frameworks to integrate Kobil security products to the iOS platform.
- Mentored less experienced software engineers

Technologies: iOS, Swift, Objective-C, Framework Development, Concurrency, Objective-C++, CD/CI

Developer Specialist / Team Lead (iOS) @ Accenture

📅 Oct 2016 – Sep 2018   🗺 İstanbul Technopark

- Analysed project / business requirements
- Lead iOS applications development / test lifecycle
- Developed iOS applications (Swift, Objective-C, Integrated third party APIs or services)
- Mentored less experienced software engineers

Technologies: iOS, Swift, Objective-C

iOS Application Developer @ PhonoClick

📅 Jul 2010 – Oct 2016   🗺️ İstanbul Technical University Technopark

- Developed CRM iOS applications
- Developed REST API
- Developed mobile web application

Technologies: iOS, Objective-C, C#, MySQL, jQuery Mobile, Html, Css, Javascript

iOS Application Developer / Web Applications Developer @ Mira AR-GE

📅 Jul 2009 – Jun 2010   🗺️ Gebze GOSB Teknopark

- Developed iOS and Web applications
- Maintained and added new features to existing projects
- Integrated GSM service provider APIs to company's projects

Technologies: iOS, Objective-C, PHP, MS-SQL Server

Web Applications Developer @ Boxx3g International

📅 Jun 2008 – May 2009   🗺️ Canada, Remote

- Developing web applications, CMS Applications
- Facebook applications

Technologies: PHP, Zend Framework, MySQL, Html, Css, Javascript

Web Applications Developer @ Freelance

📅 May 2006 – Jun 2008   🗺️ İstanbul, Turkey

During this period, I worked on various web applications for several companies in İstanbul. Some examples are:

- Social networking and online flash games site for Sinerji İnteraktif.
- E-Commerce website and a software activation system to Orancell Bilişim.
- Weekly magazine website, newsletter system for Riskcenter Türkiye.
- Bidding website for Bilgibirikim Bilgisayar Sistemleri.
- Built a CMS system for their products and dealers to PCC Electronics and Security Systems.

Technologies: PHP, Zend Framework, MySQL, Html, Css, Javascript

Education

2002 – 2007 Gebze Technical University – Computer Engineering
